SCA Experience

March 1999-Present

Barony of Tir-y-Don, Kingdom of Atlantia (Yorktown, VA)

Llwyd has served Atlantia at all levels of the rapier marshallate and in all rapier related disciplines. He has participated on the Society level KRM mailing list since 2005.

During the discussion of spears on the rapier field he conducted a weapons force experiment that collected 1275 force data points from 71 fencers representing 7 Kingdoms with 3 weapon types under 7 different shot conditions. This experiment was documented in photos, video, and an excel spreadsheet containing every recorded value and posted to the web at <http://baronllwyd.org/Machine>.

Llwyd has marshalled for dozens of battles at Pennsic, been Marshal in Charge for the largest SCA tournament ever held (Atlantian 5-Man Melee with 180 fencers making up 36 teams), as well as serving as MiC at scores of local and regional events.

Llwyd and his wife served a four-year term (maximum allowed by Kingdom Law) as Baronage for the Barony of Tir-y-Don. Llwyd is one of the most frequent instructors at Atlantia's University events and has taught at two KWARs.

He was Flaming Gryphon's first Baronial Rapier Marshal and is the premier of their Baronial rapier award, The "Academie de Griffes".
